

Microsoft Research Asia **Faculty Summit 2012**

Microsoft Research Connections: An Overview

Tony Hey
Vice President
Microsoft Research Connections

Microsoft Research

- *Expand the state of the art in each of the areas in which we do research*
- *Rapidly transfer innovative technologies into Microsoft products*
- *Ensure that Microsoft products have a future*

Microsoft Research

Worldwide Presence

MSR Asia

MSR Cambridge, UK

MSR India

MSR New England

Redmond

Silicon Valley, California

**NEW:
MSR New York**

XCG

FUSE Labs

Microsoft Research Asia
Faculty Summit 2012

Microsoft Research Connections

Work with the
worldwide academic
research community
to speed research,
improve education,
and foster innovation

Collaborations to
pursue scientific
breakthroughs

Inspire computer
and information
scientists

Accelerate
scientific
exploration with
computing

Engagement and Collaboration

Core Computer
Science

Natural User
Interface

Wellbeing

Education and
Scholarly
Communication

Research Accelerators

- Worldwide Telescope
- MS Biology Foundation
- Chemistry Add-in for Word
- Zentity
- Trident Workflow Workbench

Global Partnerships

- Centre for Computational and Systems Biology
- Microsoft Research-INRIA Joint Centre
- Microsoft Research Asia (MSRA) Joint Lab Program
- Microsoft & FAPESP

External Researchers

- Faculty Fellows
- Graduate Women Scholars
- Jim Gray eScience Award
- Student Internships
- ACM Student Research Competition

Changing Nature of Discovery

- Complex models
 - Multidisciplinary interactions
 - Wide temporal and spatial scales
- Large multidisciplinary data
 - Real-time streams
 - Structured and unstructured
- Distributed communities
 - Virtual organizations
 - Socialization and management

<http://fourthparadigm.org>

Machine Learning and eScience

Tackling societal challenges

Identifying genetic and environmental causes of disease

Fighting HIV/AIDS

Increasing energy yield of sugar cane through genome assembly

Data-intensive Science

Virtual Research Environment (VRE) Toolkits

Currently Available Kits

- [Cancer Imaging for SharePoint](#) (Oxford University)
- [Collaborator Search Kit](#) (British Library)
- [Content Archiving Kit](#) (British Library)
- [Content Lifecycle Integration Framework](#) (University of Hull)
- [Data Management Kit](#) (University of Southampton)
- [Document Review Workflow Kit](#) (British Library)
- [LabTrove Research Blog](#) (University of Southampton)
- [Literature Review Kit](#) (British Library)
- [Repository Integration Kit](#) (University of Southampton)
- [RSS Feeds Kit](#) (British Library)
- [User Administration \(FBA\) Kit](#) (British Library)
- [X-Ray Diffraction Data Converter Kit](#) (University of Delhi)

Templates

- [Researcher and Project Templates](#) (British Library)
- [LVRE with Active Directory](#) (La Trobe University)

World Wide Telescope

www.worldwidetelescope.org

Big data requires new types of data visualization tools

Collaborators:

- Alyssa Goodman; Harvard University
- Alex Szalay; Johns Hopkins University
- Curtis Wong, Jonathan Fay; Microsoft Research
- Integration of data sets and one-click contextual access
- Easy access and use
- As of May 2010, over 4M unique users
- Average number of WWT users is over 8K per day

See TED talks by Roy Gould and Curtis Wong

Layerscape with Seismic Data

ChronoZoom – History in its broadest possible context ...

The challenge: exploration of all known time series data with the ability to smoothly transition from billions of years down to individual nanoseconds...

This is what Walter Alvarez, Professor of Earth and Planetary Science at University of Berkeley set out to do.

Our vision is to create an application that allows researchers to browse, overlay, and explore interdisciplinary data sources.

www.chronozoomtimescale.org

DataUp: Data Curation for Excel

Excel add-in and HTML5 browser app
Microsoft Research with California Digital
Library's Curation Center
Linked to the DataONE (an NSF DataNet
Project)

- Goal to facilitate data management, sharing, and archiving for scientists.
- Building open-source add-in (extension) for Microsoft Excel to assist in documenting and preparing Excel data for archiving and sharing.
- Targeting environmental scientists but should be useful for wide audiences
- Define archiving as movement or storage of data with metadata, to a repository for long-term retention.

Documents

Interactive
Data

(Thanks to Bill Gates SC05)

Microsoft Research Asia
Faculty Summit 2012

Archiving and Preservation: *A Document Conversion Service*

Convert Word Perfect and Word documents to OOXML, ODF and UOF

View documents in various formats

Compare original and converted documents

<http://odf-converter.sourceforge.net/>

EU VENUS-C Project:

*Virtual multidisciplinary **EnviroN**ments
USing **C**loud infrastructures*

Virtual multidisciplinary EnviroNments USING Cloud infrastructures

**Part of the MSR Cloud Initiative for Research
led by Dennis Gannon**

Microsoft Research Asia
Faculty Summit 2012

All Scientific Data Online

- Many disciplines overlap and use data from other sciences.
- Internet can unify all literature and data
- Go from literature *to* computation *to* data *back to* literature.
- Information at your fingertips –
For everyone, everywhere
- Increase Scientific Information Velocity
- Huge increase in Science Productivity

(From Jim Gray's last talk)

Microsoft Academic Search

Microsoft Academic Search is a free academic search engine developed by Microsoft Research Asia, which also serves as a test-bed for our object-level vertical search vertical search research.

- Easily search the top papers, authors, conferences, and journals for a topic.
- See details about a specific paper, author, conference, journal or organization.
- Quickly find relationships between authors.
- Discover influential papers, authors, conferences, journals and organizations within a certain field.
- Get the latest Call for Papers.

Research Accelerators

OUTERcurve
FOUNDATION

Microsoft Research Connections Contributions

Project Trident: Toolset based on Windows Workflow Foundation that provides scientists' need for a flexible, powerful way to analyze large, diverse datasets.

Chemistry Add-in for Word: Chem4Word is an add-in for Microsoft Word that enables semantic authoring of chemical structures.

ConferenceXP: Platform for real-time collaboration that seamlessly connects people or groups over a network, providing high-quality, low-latency videoconferencing and a rich set of collaboration capabilities.

.NET Bio: Library of commonly used bioinformatics functions plus applications built upon that framework.

ChronoZoom: Visualization tool with zoom capability for browsing and exploring multidisciplinary data.

Towards a Semantic Cyberinfrastructure ...

Future Research Infrastructure will use semantic knowledge services on Client + Cloud
